Introduction

Thanks for using TunePat Amazon Music Converter for Windows!

[TunePat Amazon Music Converter for Windows](#) is a powerful audio converter designed for recording and converting Amazon songs, albums, playlists, and podcasts to various formats like MP3, AAC, WAV, AIFF, FLAC, and ALAC. This program has two conversion mode including App mode and Web player mode. What is more important is that it can convert **Ultra HD** music at **1X/5X/10X** conversion speed. What's more, it keeps the ID3 tags information (title, artist, album, artwork, track number, playlist index, year, etc.) after conversion, and allows users to customize the name of the output files. With these excellent functions, you can enjoy the converted Amazon music offline anywhere anytime.

Tutorial of TunePat Amazon Music Converter for Windows

Key Features

- Download music from Amazon Music Prime & Unlimited.
- Convert Amazon songs, albums, playlists, and podcasts to MP3, AAC, WAV, AIFF, FLAC, or ALAC.

Register TunePat Amazon Music Converter for Windows

Step 1: Launch TunePat Amazon Music Converter on PC and a pop-up will appear automatically. You need to log in to your Amazon Music account, and please note that TunePat will not take any information out of your account. If the program doesn't launch the registration interface, please click on the “**Sign In**” icon or the “**Menu > Register**” option to access the registration interface.

Step 2: Then copy and paste the registration **E-mail** and **Code** you received into the registration popup window. Then click the “**Register**” button.

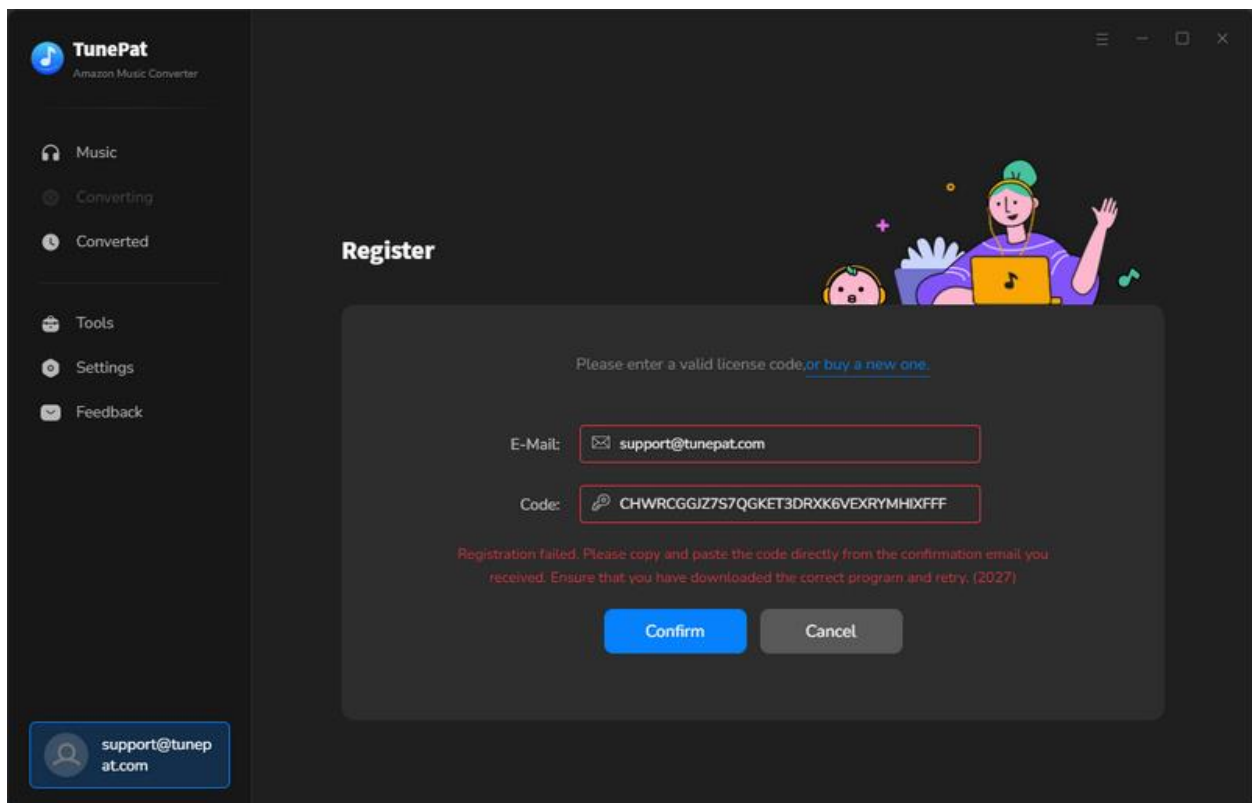

Step 3: Once finished the Registration process, the limitations of the trial version will be removed.

Tutorial of TunePat Amazon Music Converter for Windows

Tips:

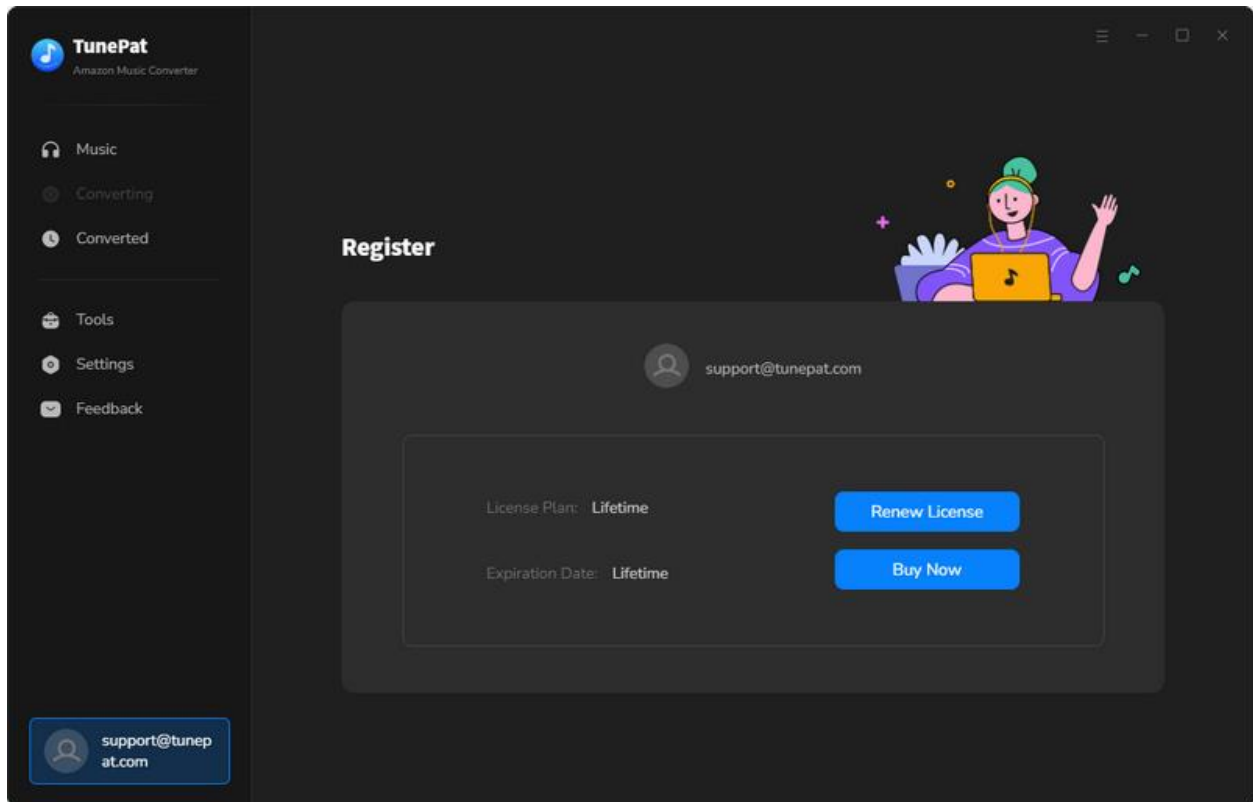

1. Make sure your computer is well-connected to the Internet.
2. We suggest you should just copy & paste the Registration information into the pop-up dialog.
3. Make sure both the Registration Email and Registration key are provided by our company after purchasing. Please click “**Buy Now**” to get a license if you have not paid.
4. A Windows license key cannot be used on a Mac computer, and vice versa.
5. Please be aware that a TunePat license is only valid for use on one computer, as stated on our purchasing page. The license will become invalid if it is used concurrently on more than one device.
6. Please make sure the Registration Email and Registration key you entered are both complete and correct. Otherwise, an error message will pop up as below:

Renew Amazon Music Converter License

We provide auto-renewal services to our monthly and annually subscribers. A new license key will be sent to users' email and TunePat's license key needs to be registered manually.

Therefore, please click the blue box in the lower left corner and there will pop up a **Register** window. Simply tap on the “**Renew License**” button, fill in the blank with your email and the latest code and then select “**Confirm**”.

After all, you will see “**You have successfully registered with the program. Thank you for your support!**” and the expiration date of your license. If you stop this subscription for any reason, please contact us to cancel the auto-renewal for you before the expiration date.

Installation & Interface

Choose Audio Source

When you launch the TunePat Amazon Music Converter, it will offer you two options: convert music from Amazon Music App or Amazon Music Web player. Each option has its unique features so the decision depends on your preferences.

If you choose to convert music from **App**, you can download music from the Amazon Music App by copying the song URL. This setting enables **Ultra HD** audio quality and a **5x** download speed. If you

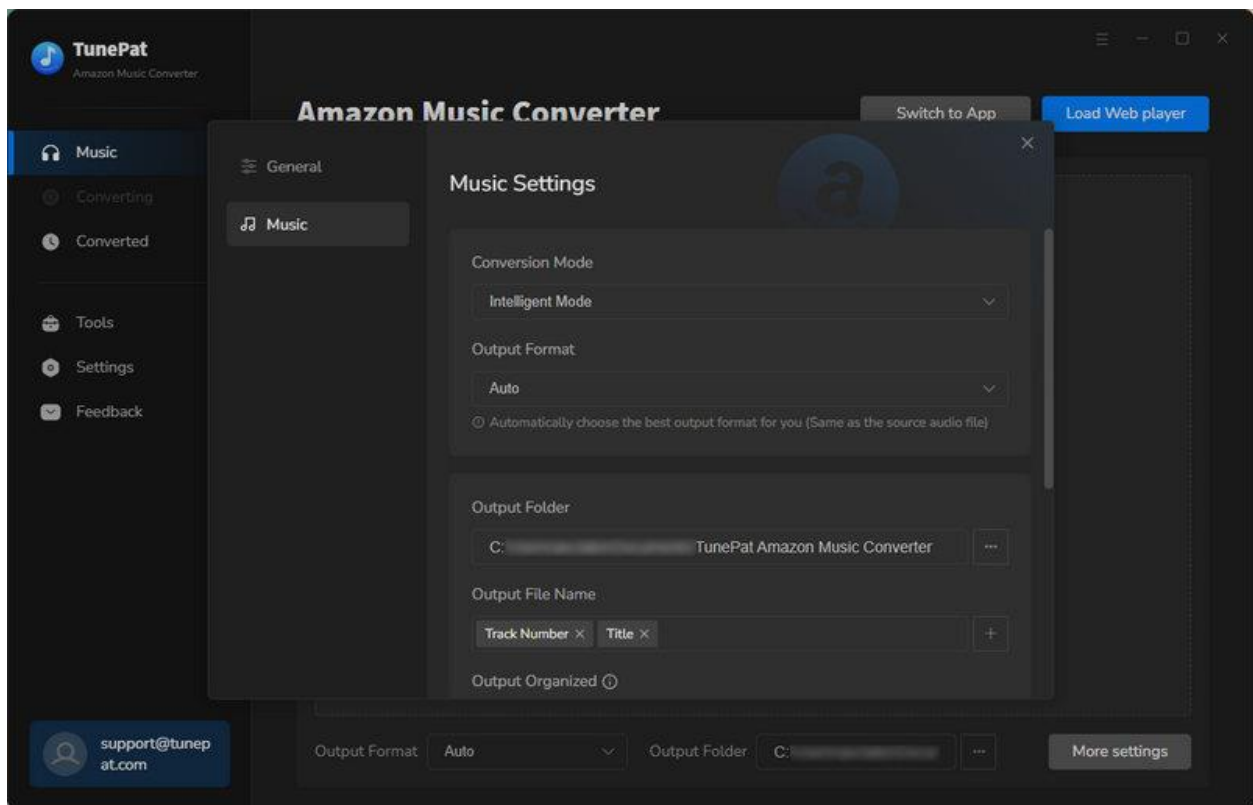

Tutorial of TunePat Amazon Music Converter for Windows

choose to convert music from **Web player**, you can browse and select music directly from the Amazon Music web player. This setting enables **HD** audio quality and a **10x** download speed. No need to install an extra application.

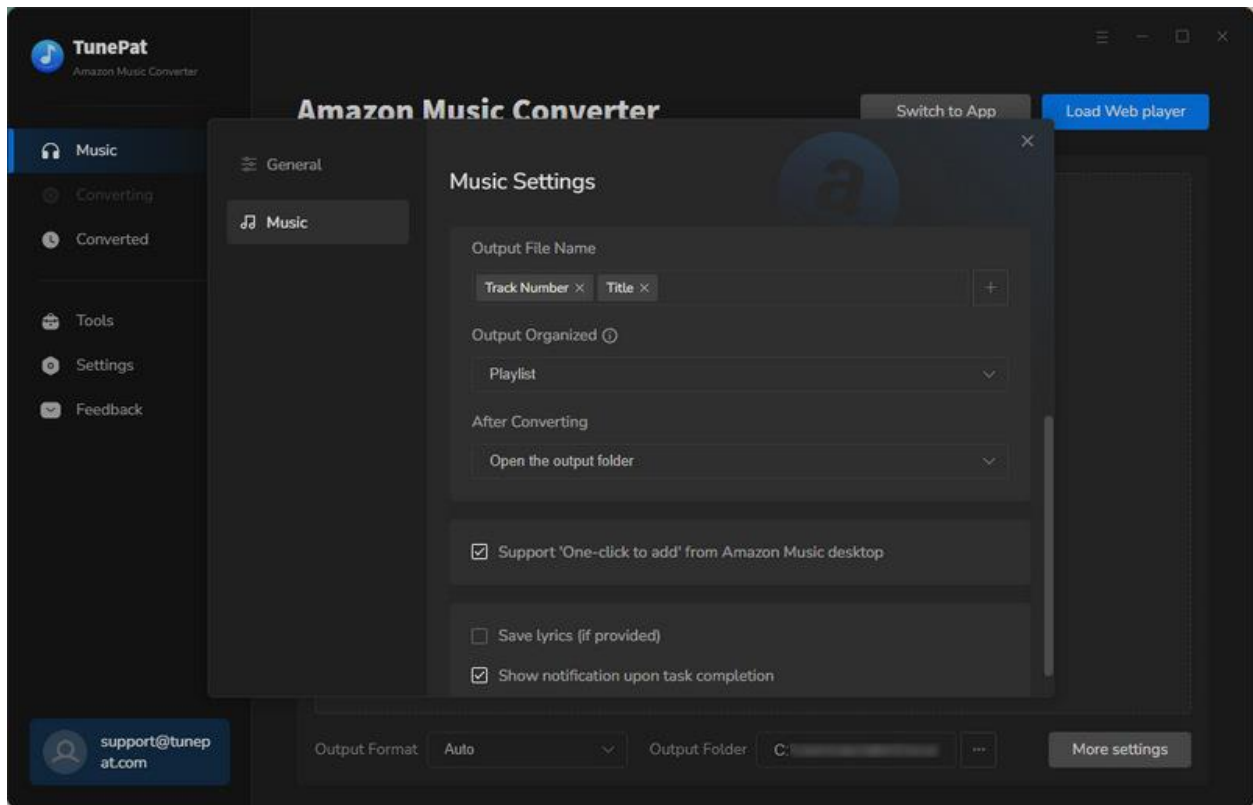

Choose Output Settings

Click the “**Settings**” button on the left. Here you can choose the conversion mode, the output format (Auto/MP3/AAC/FLAC/WAV/AIFF/ALAC), output quality, output path, etc.

Tutorial of TunePat Amazon Music Converter for Windows

Tips:

1. If you want to download a song including lyrics, please turn on the **"Save lyrics (if provided)"** button in the **"Settings"**, then they will be downloaded and saved in **LRC** format with the music.
2. To better organize your music library, TunePat provides many options for users to choose from. Click "Output Organized" and you can save the output audio files to folders categorized in different ways.
3. To get the Ultra HD sound quality, please choose "Auto" format. The music will be downloaded in original quality and format.

Convert Music Files from Amazon Music App

Make sure you have downloaded the Amazon Music App in advance. When you choose to convert music from App, TunePat's page and Amazon Music App's page will be activated together.

When you choose to convert music from the Amazon app, there are 2 ways and they are all simple to follow.

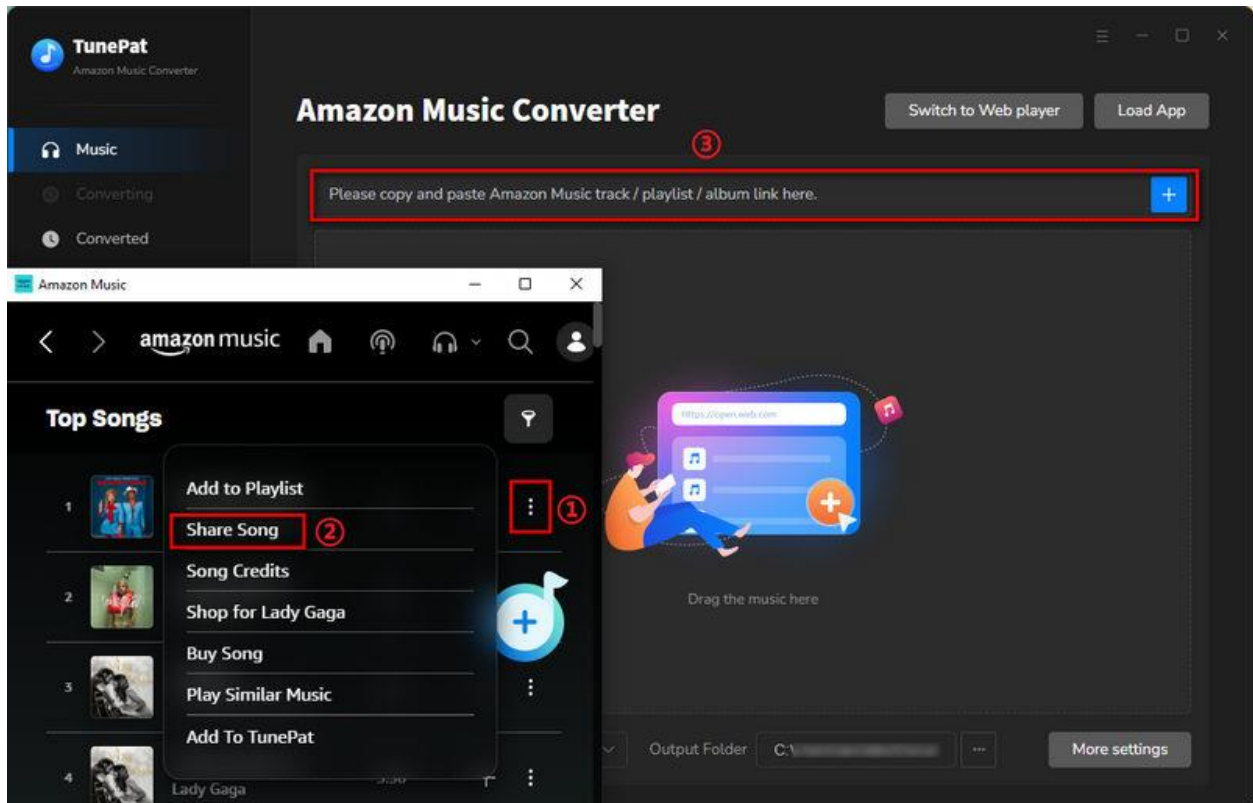

The first one is to drag the Amazon music you want to convert to TunePat. Just drag the cover art of the song/ album/ playlist into TunePat and it will be automatically read by TunePat.

Tutorial of TunePat Amazon Music Converter for Windows

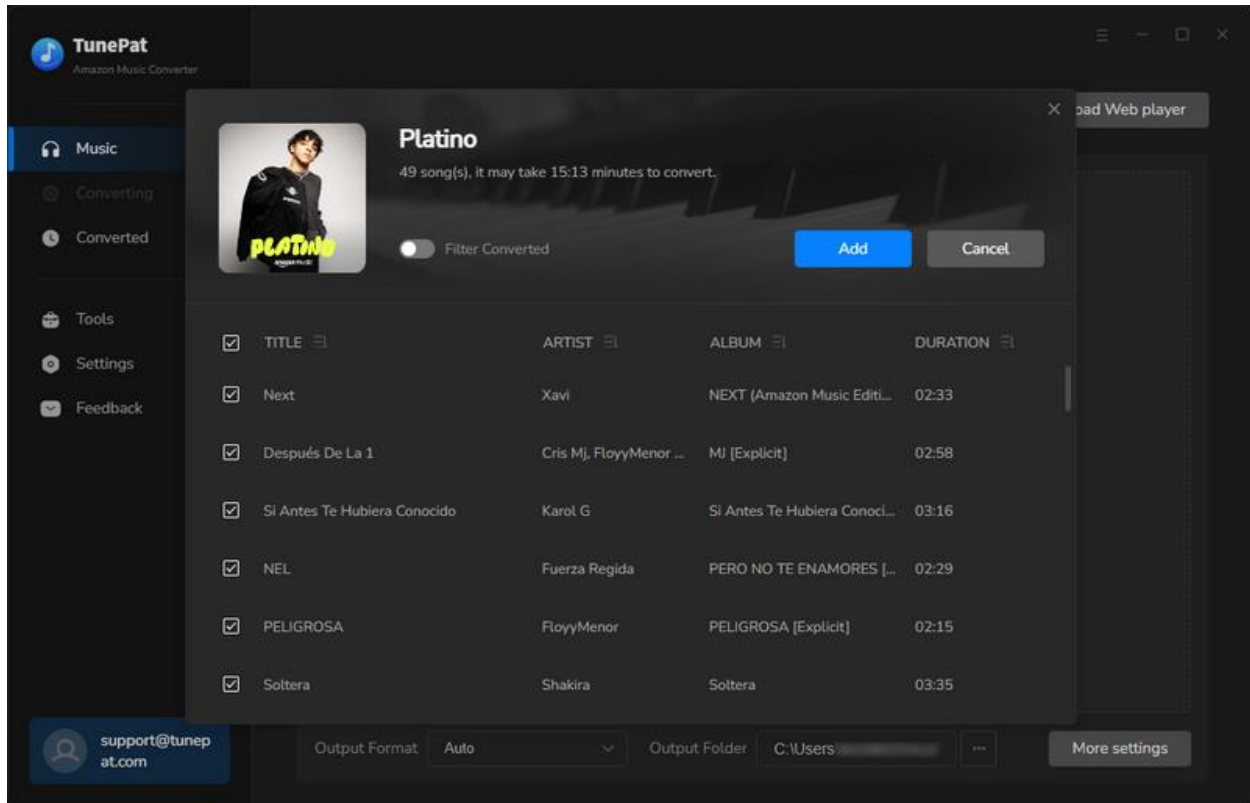

The second one is to paste the URL of Amazon music to TunePat. When you find the Amazon music you want and then click the three-dot icon, you will get a drop-down list. All you need to do is to tap on the "**Share Song**" option from that list, select "**Copy Link**" and then paste the link into the blue box on TunePat's "**Music**" page. The application will read the selected Amazon song/album/playlist as soon as you click the blue "+" icon.

Tutorial of TunePat Amazon Music Converter for Windows

The songs you want to add will be read by TunePat and you will see this page popping up. You can deselect the songs you don't want and click "**Add**". There is a button named "**Filter Converted**" and you can avoid repeated conversion by clicking it.

Select "**Convert**" if you want TunePat to start the converting process right away. If you want to add more Amazon songs from other playlists, selecting "**Add More**" or go back to the Amazon Music App to choose songs.

Tutorial of TunePat Amazon Music Converter for Windows

The screenshot shows the TunePat Amazon Music Converter interface. The left sidebar contains navigation options: Music, Converting, Converted, Tools, Settings, and Feedback. The main area displays "3 songs, total duration 00:08:47". Below this, there is a checkbox for "Put computer to sleep when finished" and three buttons: "Add More", "Delete All", and "Convert". A table lists the songs to be converted:

TITLE	ARTIST	ALBUM	DURATION
Next	Xavi	NEXT (Amazon M...	02:33
Después De La 1	Cris Mj, FloyyMenor & Louki	MJ [Explicit]	02:58
Si Antes Te Hubiera Conocido	Karol G	Si Antes Te Hubie...	03:16

At the bottom left, there is a support email address: support@tunepat.com.

The screenshot shows the TunePat interface during the conversion process. The left sidebar now highlights "Converting". The main area displays the song "Next" with its album cover and the text "Finished : 0% (0 / 3 tracks)" and "Time : 00:38". There is a checkbox for "Put computer to sleep when finished" and an "Abort" button. The table below shows the progress of the conversion:

TITLE	ARTIST	ALBUM	DURATION
Next	Xavi	NEXT (Amazon...	02:33
Después De La 1	Cris Mj, FloyyMenor...	MJ [Explicit]	02:58
Si Antes Te Hubiera Conocido	Karol G	Si Antes Te Hu...	03:16

The first row of the table is highlighted with a blue line, indicating it is the current track being processed.

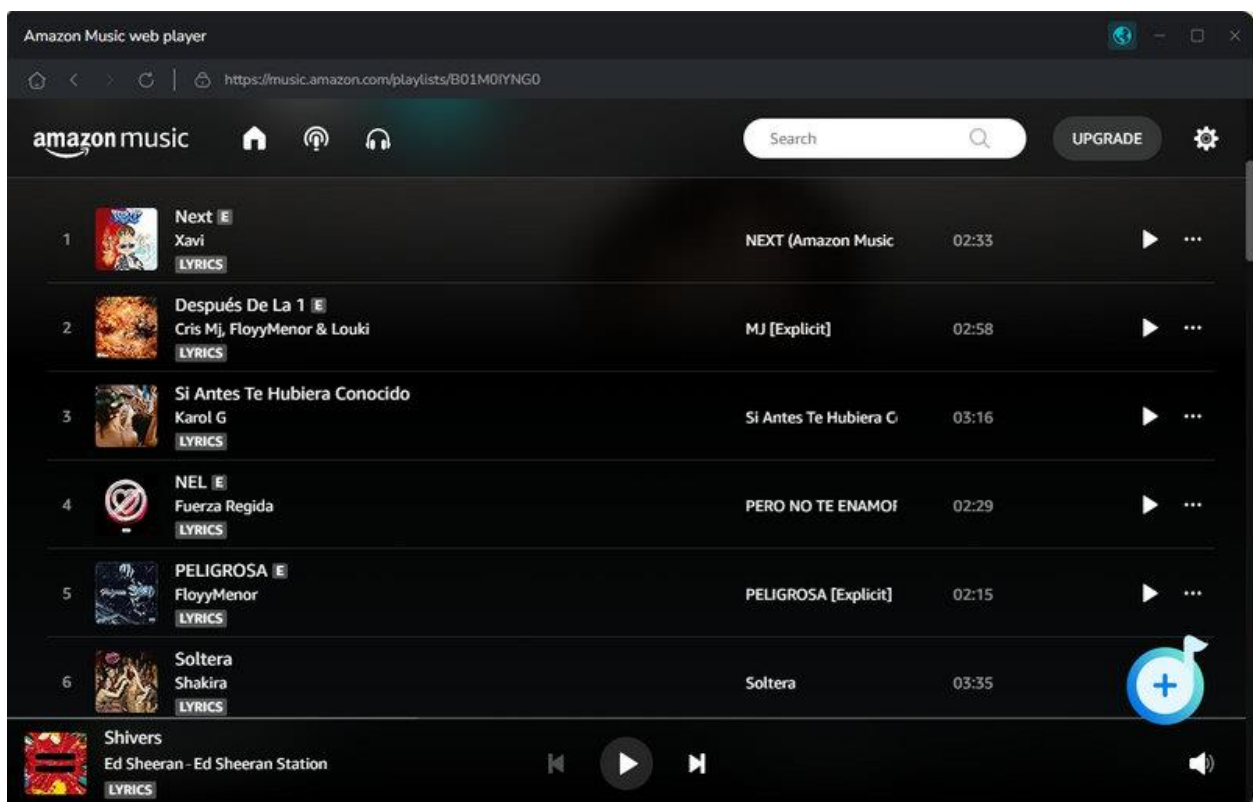

Tutorial of TunePat Amazon Music Converter for Windows

Convert Music Files from Amazon Music Web Player

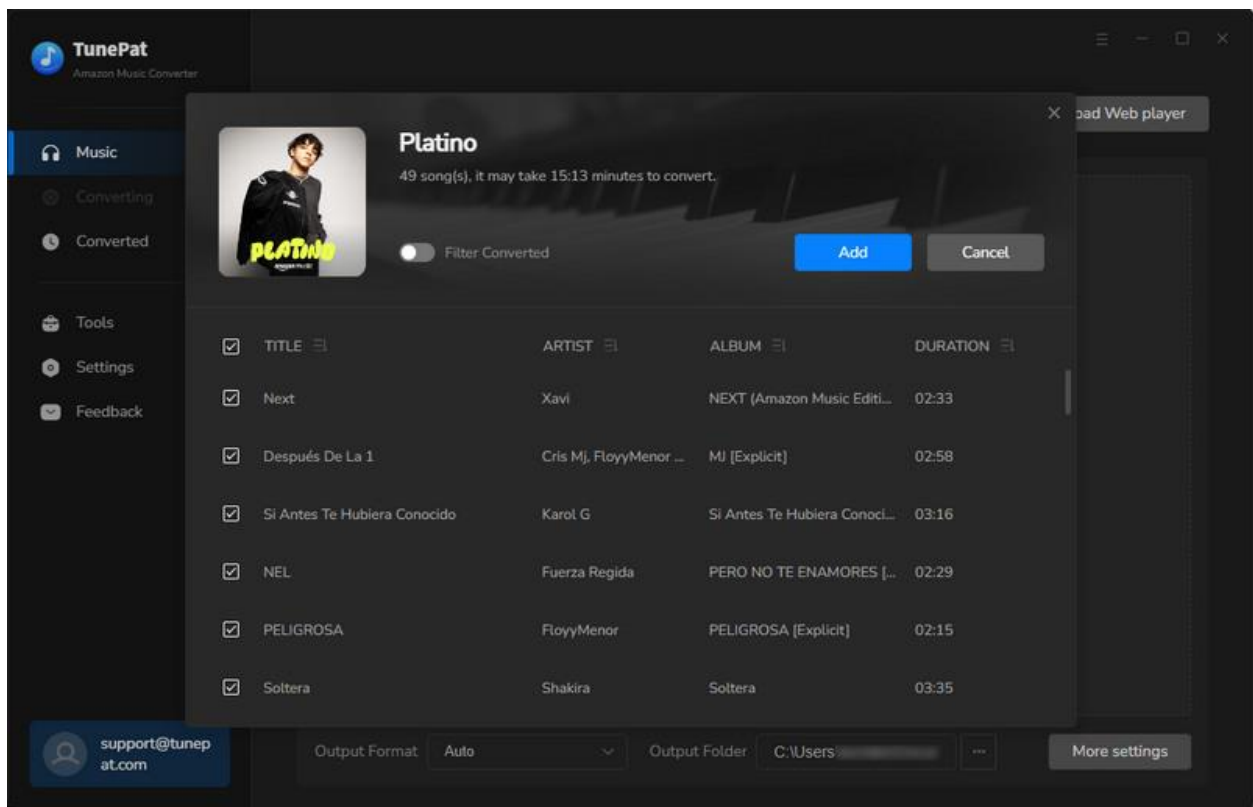

If you choose to convert music from the web player, you can simply choose **"Switch to Web player"**, and TunePat will launch the web player of Amazon Music automatically. Log in to your Amazon account in the Amazon Music web player.

Open one of the playlists, artists, albums, or podcasts, click on the **"Click to add"**  button, and then select the songs that you'd like to convert by clicking **"Add"**.

Tutorial of TunePat Amazon Music Converter for Windows

Click the "**Convert**" button to start the conversion and soon all the songs will be saved to the output path you set on your local computer. TunePat also allows you to add more Amazon songs from different playlists, so just click "**Add More**" to select all the songs you want to convert in the conversion list. After that, you can click "**Convert**" and start the conversion.

Tutorial of TunePat Amazon Music Converter for Windows

Check Conversion History

Once the conversion is done, you can find the downloaded Amazon Music by clicking on the "Converted" button or directly going to the output folder you customized in the previous step. You can either browse and play these songs directly from this page, or click the "Show in Windows Explorer" button next to any song to locate the stored audio files.

The screenshot shows the TunePat Amazon Music Converter interface. On the left is a sidebar with navigation options: Music, Converting, **Converted**, Tools, Settings, and Feedback. The main area is titled "Converted" and shows a list of 6 songs. The first song, "Die With A Smile" by Lady Gaga & Bruno Mars, is highlighted. A tooltip "Show in Windows Explorer" is visible over the first row. At the bottom, a music player is active, showing the same song "Die With A Smile" by Lady Gaga & Bruno Mars, with a progress bar at 00:05 of 04:12.

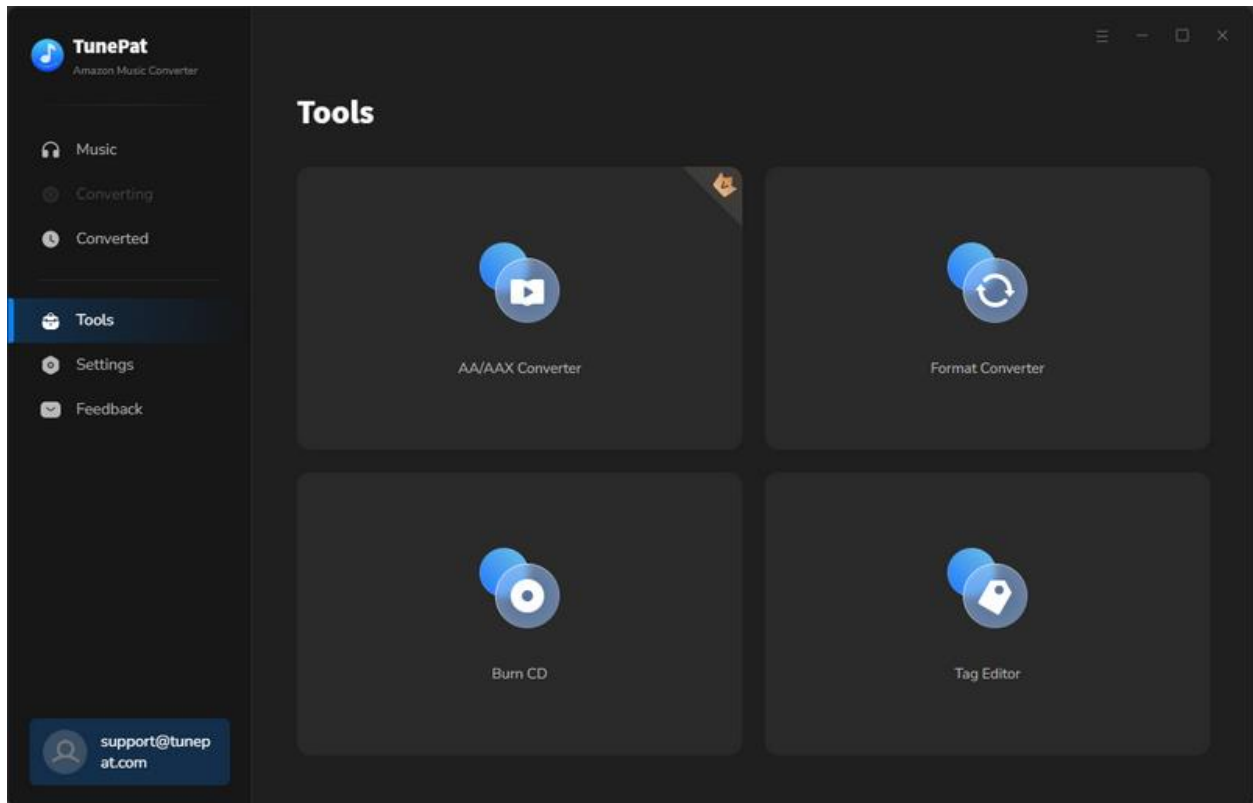

TITLE	ARTIST	ALBUM	DURATION
Die With A Smile	Lady Gaga & Bruno ...	Die With A Smile	04:12
Talking to the Moon	Bruno Mars	Doo-Wops & Hooliga...	03:38
When I Was Your Man	Bruno Mars	Unorthodox Jukebox [...]	03:34
Si Antes Te Hubiera Conocido	Karol G	Si Antes Te Hubiera ...	03:16
Después De La 1	Cris MJ, FloyyMenor ...	MJ [Explicit]	02:58
Next	Xavi	NEXT (Amazon Music...	02:33

Tools

The incredible TunePat Amazon Music Converter offers a variety of helpful functions in addition to converting Amazon Music to common formats. You can see the [Tools](#) options from the toolbar on the left. You can use the tools to convert AA or AAX audio files, edit the tag information of music files, convert the format and more. And the Windows version also provides a Free tool for burning CD.

Feedback

You can contact us directly by selecting the “**Feedback**” button at the bottom of the left navigation bar. If you have any issues about TunePat purchases, usage, or after-sales inquiries, want technical support or just leave some suggestions, do not hesitate to contact us.

For an already registered account, the email address will be displayed on this page automatically. We recommend you not to change your email address so that we can find your order information quickly when needed.

Please be sure to detail the encountered issue when contacting us about any conversion-related problems. TunePat keeps making progress because of user’s patient feedback and kind suggestions. We appreciate and cherish your advice all the time.

The screenshot shows the TunePat Amazon Music Converter application window. On the left is a dark sidebar with a navigation menu containing: Music, Converting, Converted, Tools, Settings, and Feedback (which is highlighted with a blue bar). At the bottom of the sidebar is a user profile icon and the email address support@tunepat.com. The main window area is titled "Feedback" and contains the following elements: a heading "Leave us a message or contact technical support.", an "Email address:" label above a text input field containing support@tunepat.com, a "Please describe your problem in details:" label above a large text area containing the placeholder text "The more detailed information you provide, the faster we can offer effective solutions.", a checked checkbox labeled "Attach log files", and a blue "Submit" button at the bottom right.
