Introduction

Thank you for using TunePat Apple Music Converter!

TunePat Apple Music Converter is specially designed to record tracks from Apple Music with original quality kept, enabling users to enjoy original Apple Music offline on any devices. It is regarded as one of the fastest music converters for Apple Music, as it supports batch conversion and is able to convert music from iTunes (Music app) or the Apple Music web player at up to 10X speed.

TunePat Apple Music Converter supports downloading iTunes songs, Apple Music, and audiobooks. After converting, the program will keep ID3 tags, including title, artist name, track number, year, disc number and more. Meanwhile, it allows users to organize the output files by none, playlist, artist, album, artist/album, album/artist, playlist/artist, or playlist/album. Armed with a concise interface and powerful functions, it can easily download songs from Apple Music and enable users to transfer the output files to any media player or application for offline playback.

Key Features

- Get Apple Music song, podcast, iTunes M4P music and audiobook as local files;
- Convert Apple Music songs to MP3/AAC/WAV/FLAC/AIFF/ALAC format;
- Keep ID3 tags after conversion;
- Up to 10X conversion speed; Lossless output audio quality;
- With tools available to change the output formats, edit the tag information, burn CDs, separate vocals and instruments, and edit their audio files.

System Requirements

➢ **Windows Computer**

- Windows 7 or above;
- 1GHz processor or above;
- Monitor with 1024 x 768 pixels or higher resolution;

- 512 megabytes (MB) or higher of RAM;

➢ **macOS Computer:**

- macOS10.15 or above;

- 1GHzprocessor or above;

- Monitor with 1024 x 768 pixels or higher resolution;

- 256MBorhigher of RAM.

Purchase & Registration

- **Purchase TunePat Apple Music Converter**

- **Register TunePat Apple Music Converter**

➢ Purchase TunePat Apple Music Converter

- To buy a license key for **TunePat Apple Music Converter Windows**, click here.

- To buy a license key for **TunePat Apple Music Converter Mac**, click here.

1. Why should I buy TunePat Apple Music Converter?

TunePat Apple Music Converter is a shareware, and the trial version enables users to convert the first 1 minute for each audio. After purchase, you will receive your Registration Email and Registration key to unlock the trial version limitation.

2. What are the Benefits after Registration?

- You can enjoy the **FULL** version with complete conversion.

- You can enjoy **FREE** upgrades.

- You can enjoy **FREE** technical supports.

➢ Register TunePat Apple Music Converter

Step 1: Launch TunePat Apple Music Converter and click on your avatar in the lower left corner. Or tap the Menu button ☰ on the top right corner, then select "**Register**" tab in the drop-down list.

Step 2: Please fill the blanks with your Registration **E-mail** and **Code**, and then click the "**Register**" button.

Step 3: Once the registration process is done, there will be a pop-up dialogue saying **"You have successfully registered the program. Thank you for your support!"**, and it will also show you when your license will expire.
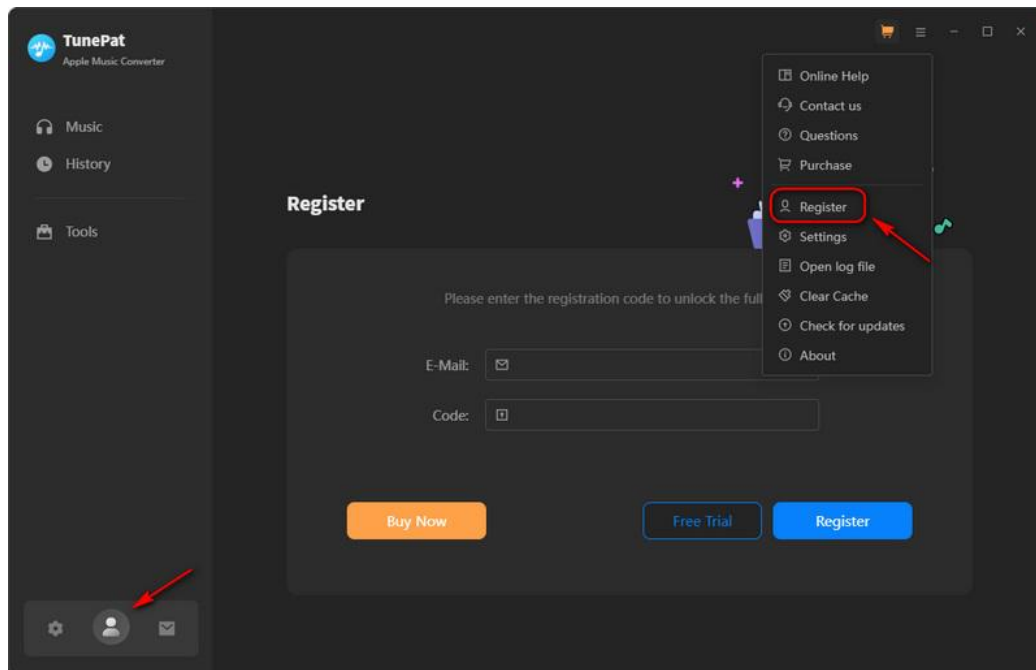

Registration Tips:

1. Make sure your computer is well-connected with the Internet.

2. We suggest you simply copy & paste the **Registration information** into the pop-up dialog.

3. Make sure both **Registration Email** and **Registration key** are provided by our company after purchasing. If you have not paid, please click **Buy Now** to finish the payment and get the license.

4. Please make sure the **Registration Email** and **Registration key** you entered are complete, and do not insert any blank before or after them. Otherwise, an error message will pop up.

5. Since each licensee key is specifically designed for one device, you are not allowed to swap the license code from one computer to another.

6. Registration codes are not shared between different versions of the program, which means you're not allowed to switch the license code from Windows to Mac computer or vise versa. It can not be shared between different program either.

7. In the case of subscription renewal, then complete the registration by these steps: Click on the "**Renew License**" button → Enter the E-mail and the new code you have received on the renewal date. → Tap on "**Confirm**".

Installation & Interface

- **Installation**

- **Main Interface**

- **Menu**

➢ Installation

To install this product, please refer to the following steps:

1. Download the latest version of TunePat Apple Music Converter through Download Center.

2. Double click the "tunepat-apple-music-converter.exe" or "tunepat-apple-music-converter.zip" file to accomplish a "single-click install".

3. After installing, you can double-click TunePat icon to launch the program.

➢ Main Interface

TunePat has two audio sources for you to choose from to convert. Please click the button "**Apple Music web player**" to switch between the **iTunes/Music App** and the **Apple Music web player**. If you are not sure the difference between them, please see: App VS. Web Player Music Downloading.
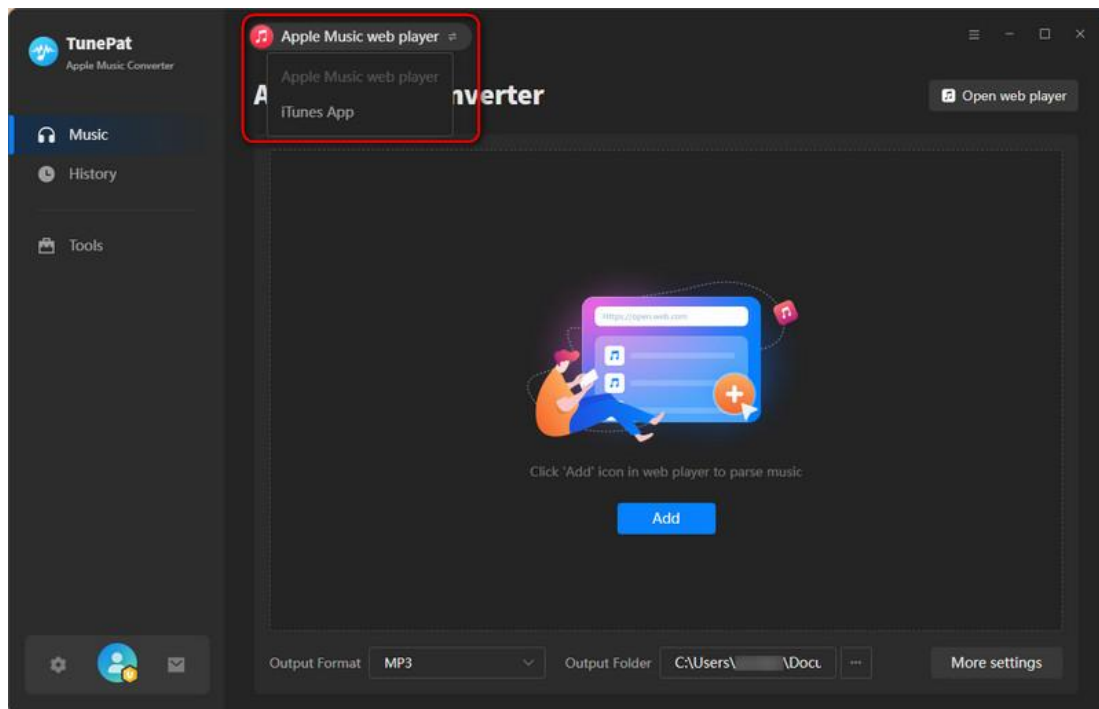

➢ **Menu**

After clicking the **Menu** button ☰ on the upper right corner of the interface, you'll see the drop-down list as the following picture. Here you can check for update when a new version is available, contact us when you need help, clear cache, open log files, check the version number, and etc.

➢ Convert from Apple Music Web Player

Please follow the prompt to sign in with your Apple ID in the Apple Music web player. You can keep the web player embedded in the TunePat interface or make it pop out of TunePat by clicking "**Keep in Converter**" or "**Pop out Player**".

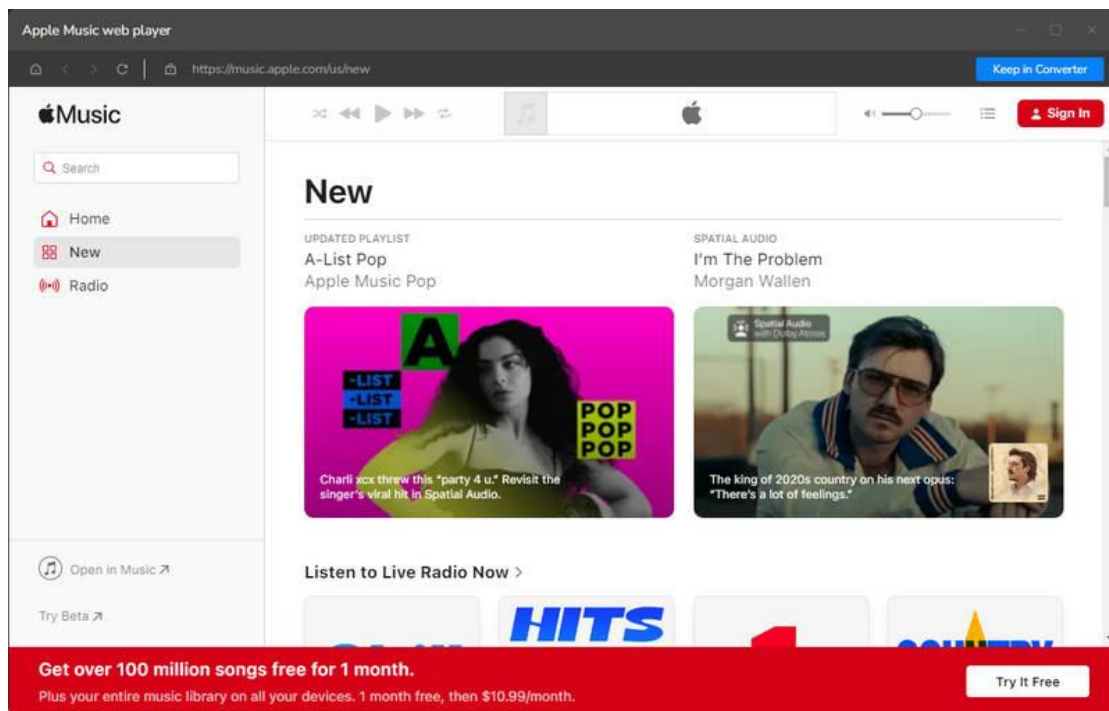

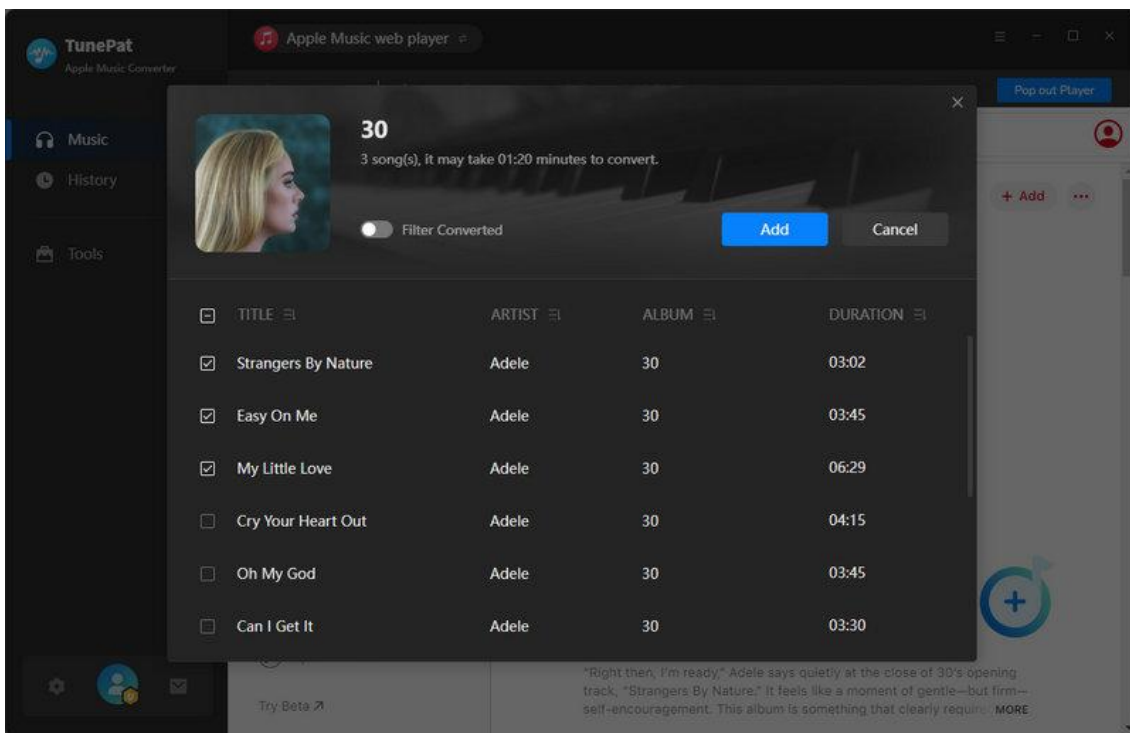

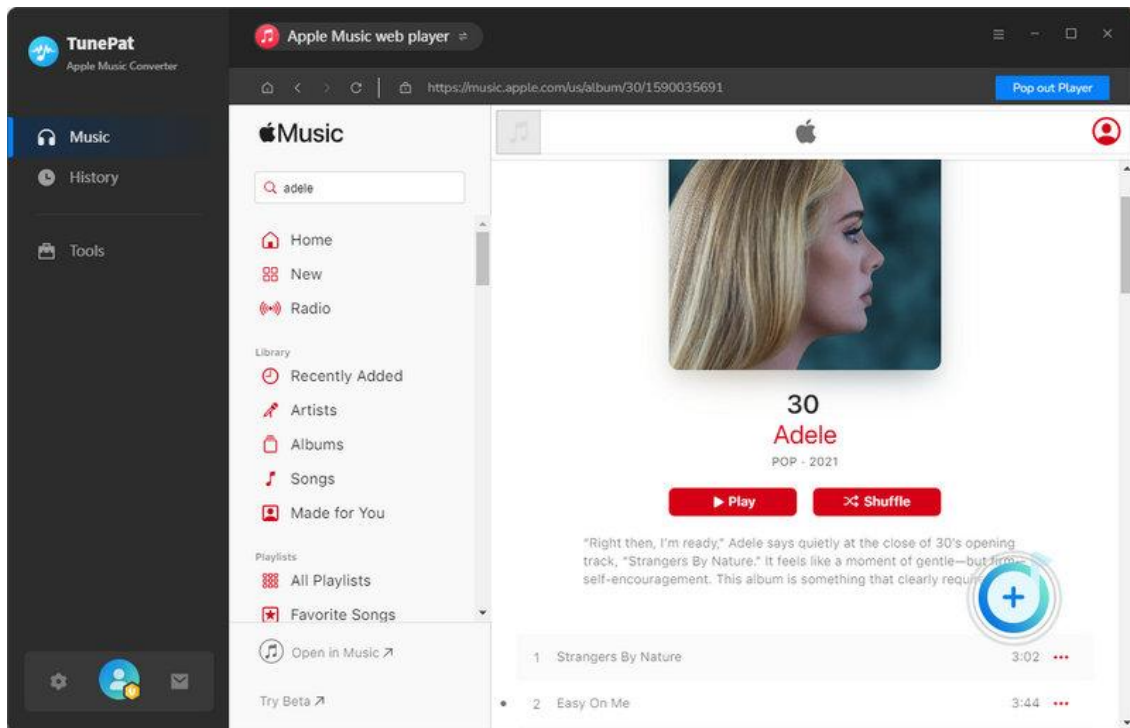

Select a playlist, artist, or album to open it, and then tap the blue "**Click to add**" button in the bottom right corner. You will see a pop-up dialog box showing the songs you can convert. Simply select the songs you want to convert. Tap the "**Add**" button.
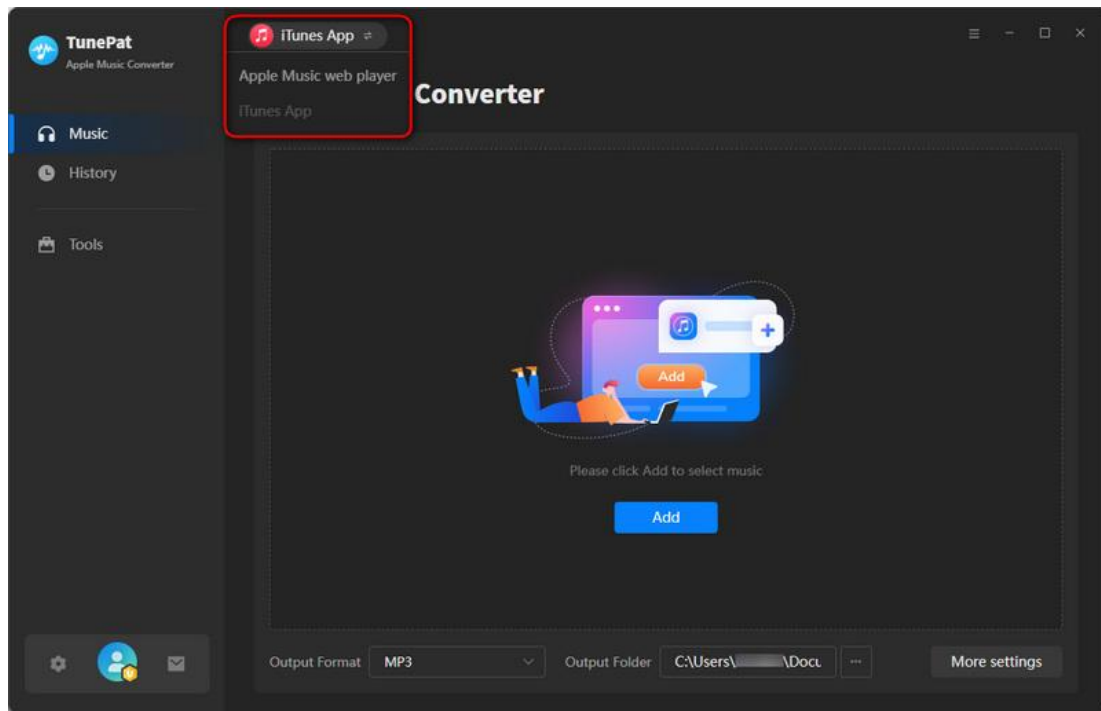

➢ **Convert from the iTunes/Music App**

To convert music from the iTunes/Music App, please click the "**iTunes/Music App**".

Your Apple Music library will appear with all the Apple tunes you want to convert. Simply choose some and then tap on the "**OK**" button to add them to TunePat. Apple Music tracks, podcasts, iTunes M4P music files, and audiobooks can all be dropped directly from your PC into TunePat.

➢ **Complete Convert Settings**

Click the settings button ⚙ on the lower left. Here you can choose output format (MP3, AAC, WAV, FLAC, AIFF, and ALAC), output quality, sample Rate, output folder, and how you like the audio files to be organized and so on. If you don't change the output path, the output audio files will be saved in the default folder. In addition, you can customize the name of the output folder.
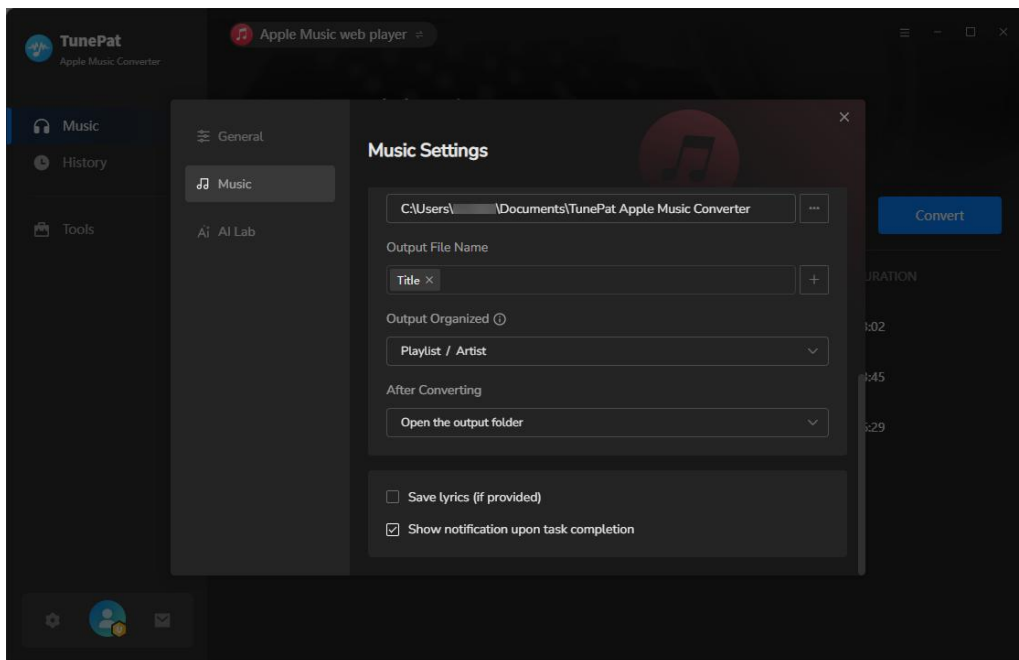

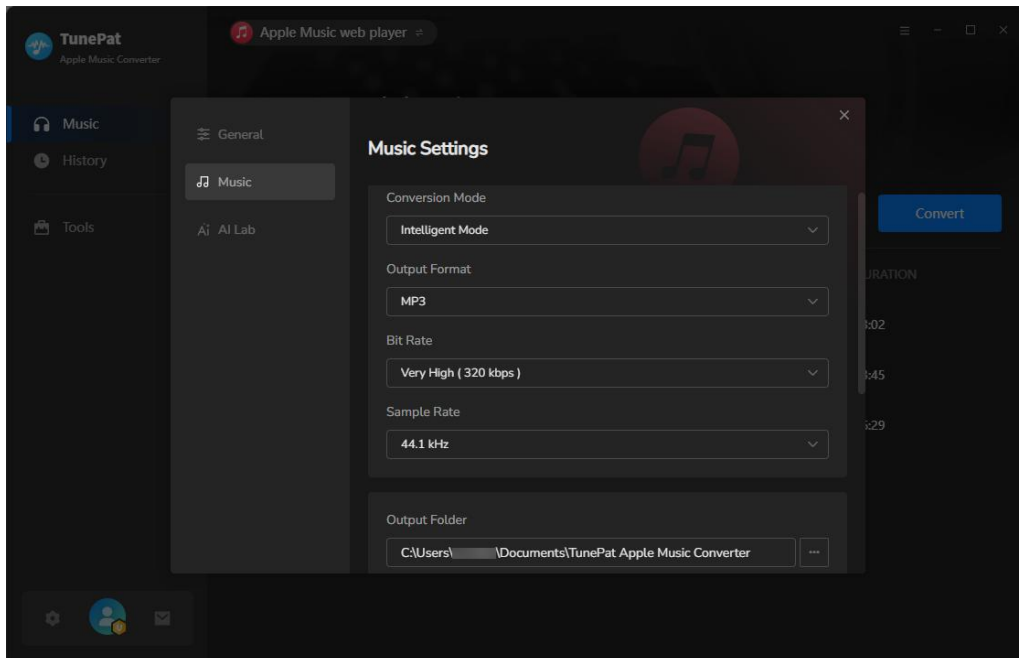

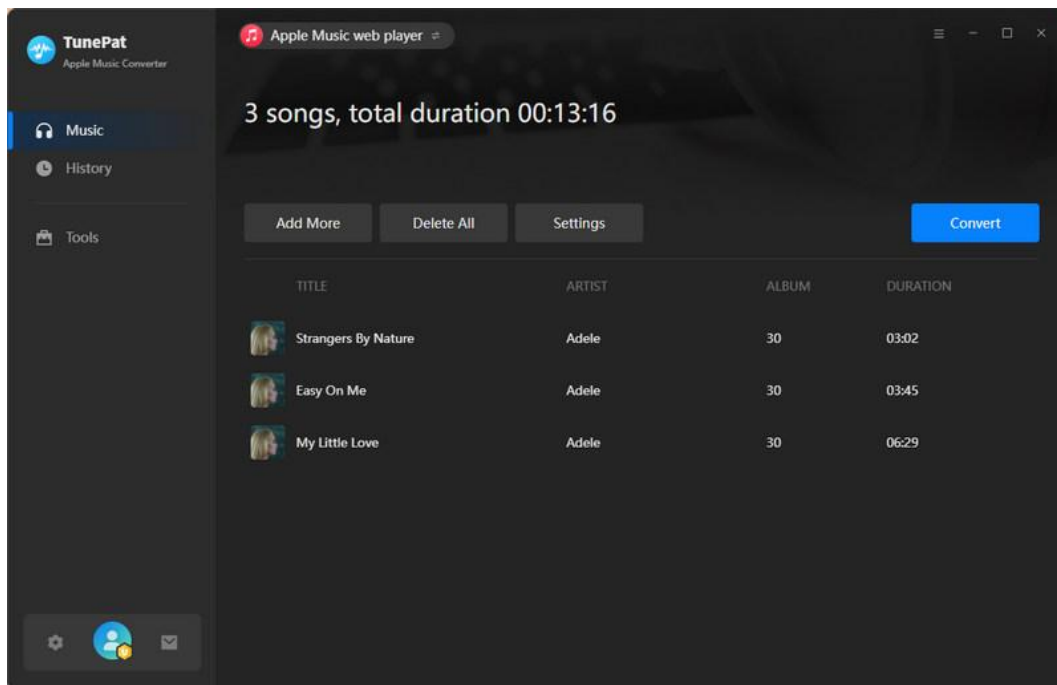

Tutorial of TunePat Apple Music Converter

Tips:

1. If you want to download a song including lyrics, please turn on the "**Save lyrics (if provided)**" button, then they will be downloaded and saved in LRC format with the music. Please note that iTunes mode does not support obtaining lyrics files.

2. To better organize your music, TunePat provides many options for users to choose from. Click "**Output Organized**" and you can save the output audio files to folders categorized in different ways.

3. To download the music in original quality and format, please choose "**Auto**" format.

➢ Convert Apple Music to Your Computer

There will be some options presented to you. You can select "**Add More**" and repeat the adding-song process if you want to convert songs from more albums, playlists, or artists. When finished adding all songs you want into the Convert list, tap on the "**Convert**" button.

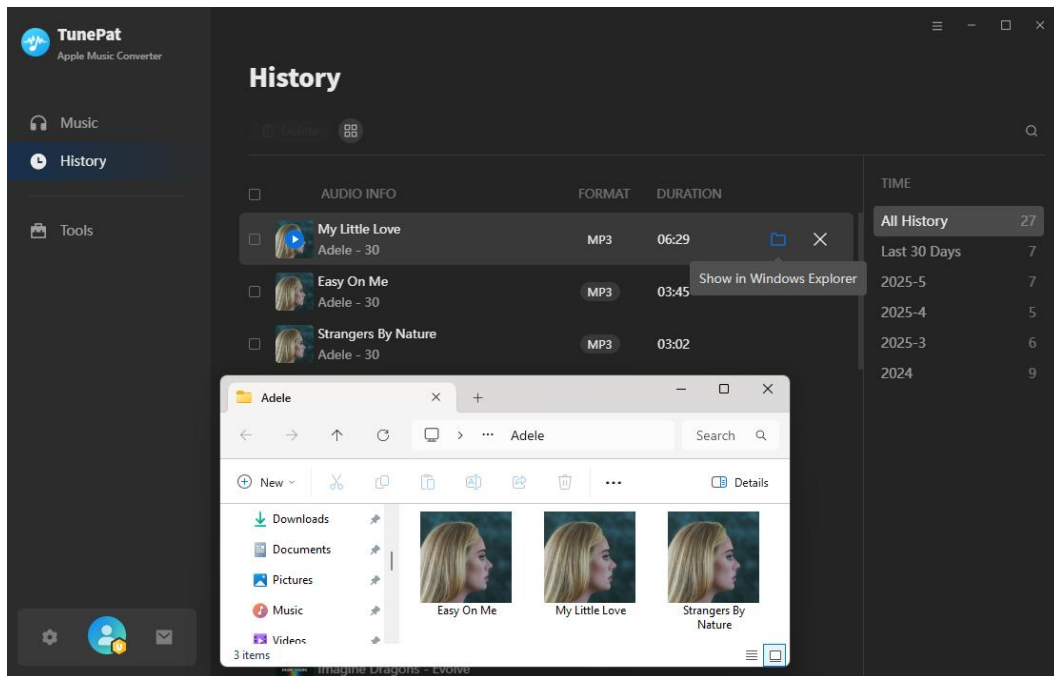

Just wait for a very short time, TunePat Apple Music Converter for Windows will save the selected songs to the folder that you set before.

➢ Check Conversion History

Once the conversion is complete, you can check the downloaded Apple Music songs by clicking "**History**". You can also locate the converted audio files by clicking the folder icon beside the title of the songs.

> ➢ **Tools**

The incredible TunePat Apple Music Converter offers a variety of helpful functions in addition to converting Apple Music to common formats. You can see the Tools options from the toolbar on the left. You can use the tools to convert AA or AAX audio files, separate vocals and instruments, edit the tag information of music files, customize and edit their audio files, convert the format and more. And the Windows version also provides a free tool for burning CD.
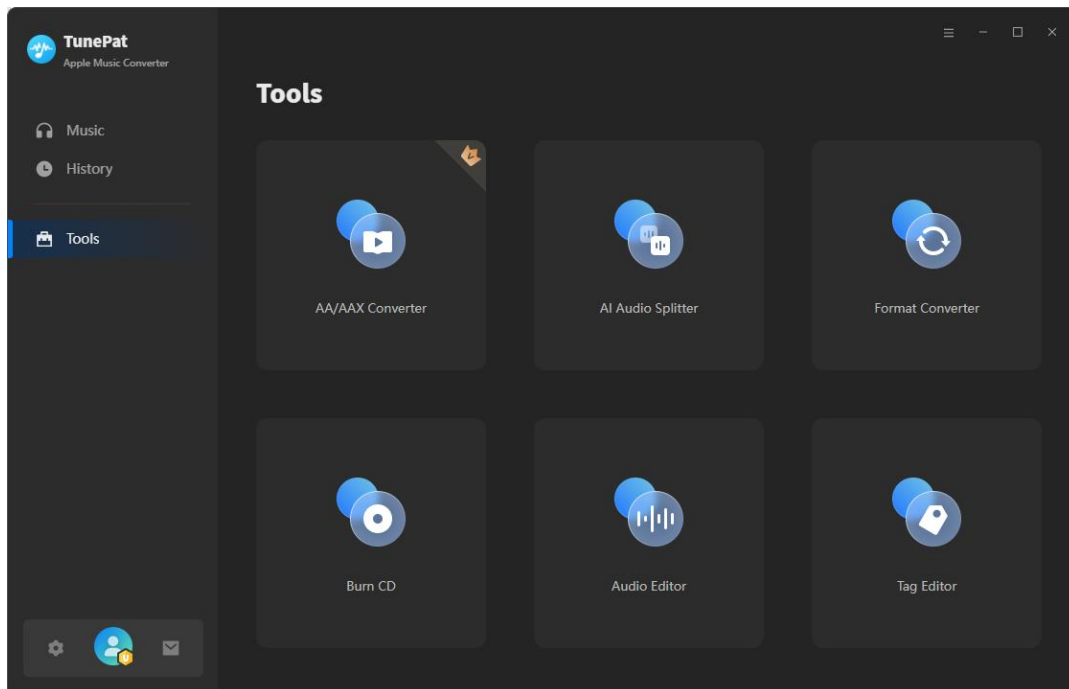

➢ **Feedback**

By using the **Feedback** section in the lower-left, you can get in touch with us directly. Please don't hesitate to contact us if you have any questions about TunePat purchases, usage, or after-sales concerns. It is our duty to help you when you need technical support, or simply want to provide some suggestions.

Your email address for an account that has already been registered will be shown on this page automatically. Therefore, in order to quickly locate your order information, please do not change your email address.

If you have any conversion-related issues, please describe them in detail when contacting us.

Thanks to the thoughtful suggestions and patient feedback from users, TunePat keeps improving in functions and features! Your advice is always valued and appreciated!
