Introduction

[TunePat Pandora Music Converter for Mac](#) is an ideal tool to download Pandora Music, Playlist, and Podcasts from online to offline listening on multiple devices, in different audio formats of MP3, AAC, WAV, FLAC, AIFF, or ALAC. Being able to output Pandora's original sound quality, TunePat Pandora Music Converter also takes advanced technology to push the conversion speed at 10X speed without sacrificing the sound quality at all. Principle ID3 tags will also be perfectly preserved.

Key Features

- Convert Pandora songs, albums, artists, playlists and podcasts.
- Available for both Pandora Free & Plus & Premium listeners.
- Losslessly download Pandora Music to computer for permanent playability.
- Convert Pandora playlists in batch at an ultra-fast speed.
- Export Pandora Music as MP3, AAC, WAV, FLAC, AIFF, or ALAC audio files.
- Retain original output audio quality and retain key ID3 tags.
- No need to install the Pandora Music app.

System Requirements

- macOS 10.11 - macOS 12.
- 1GHz processor or above.
- Monitor with 1024 x 768 pixels or higher resolution.
- 256MB or higher of RAM.

- **Set Up Pandora Output Parameters**

Locate to the Setting  section on the upper right corner to customize the Pandora Music output parameters, including Output Format (MP3/AAC/WAV/FLAC/AIFF/ALAC), the Output Quality, Sample Rate, and Output Path.

Note: If you choose "Auto" as the output format, TunePat Pandora Music Converter will convert music at a faster speed.

Here you can also set up the output files organized ways by Artist, Album, Artist/Album, or Album/Artist.

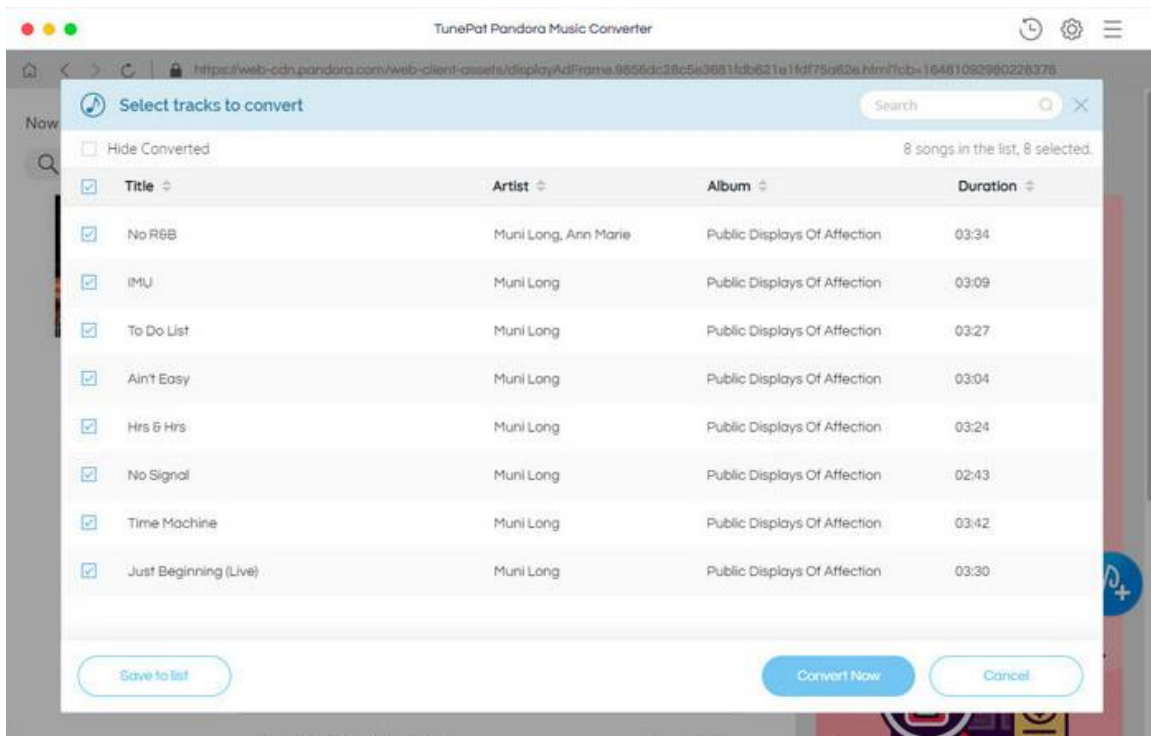

Tutorial of TunePat Pandora Music Converter for Mac

- **Add Pandora Playlists to Converter**

Browse a preferred playlist, artist, podcast, or album in the music library, then click **Add to list**  button in the right corner. TunePat will extract and put the songs or episodes in that playlists onto the conversion panel for a specific selection.

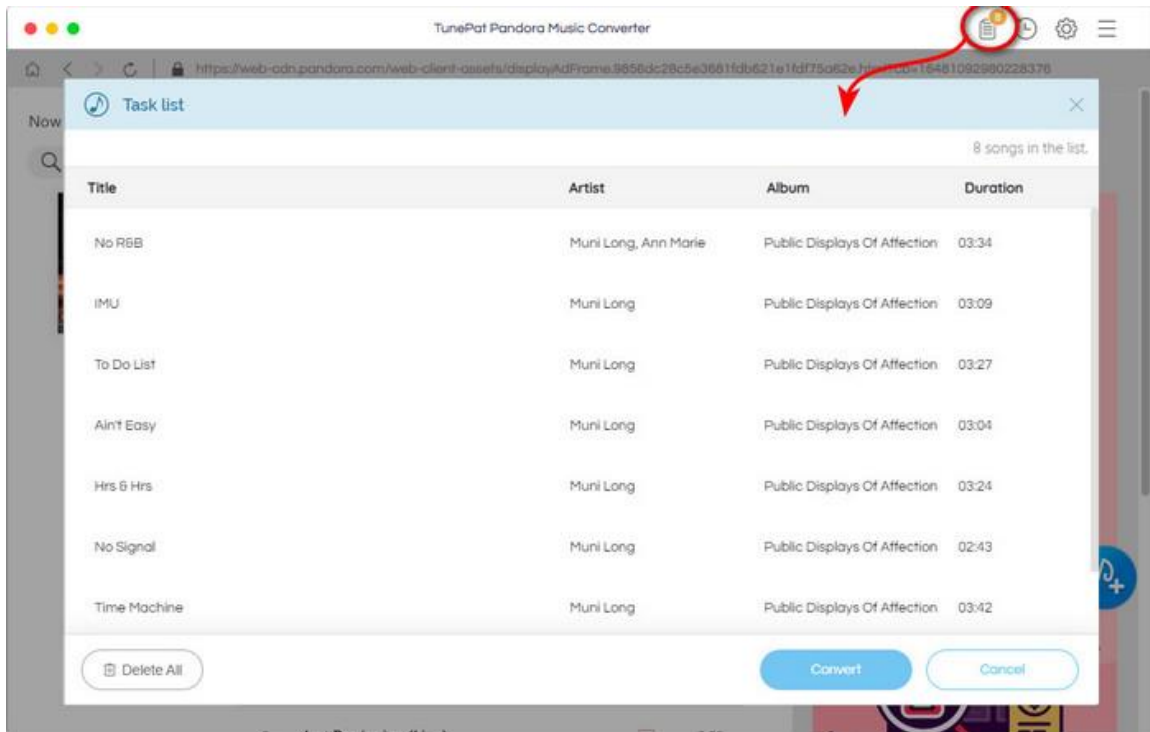

Then you can individually or wholly select the songs that you'd like to convert from the playlist.

To continue, click the **Convert Now** button to perform the conversion operation immediately.

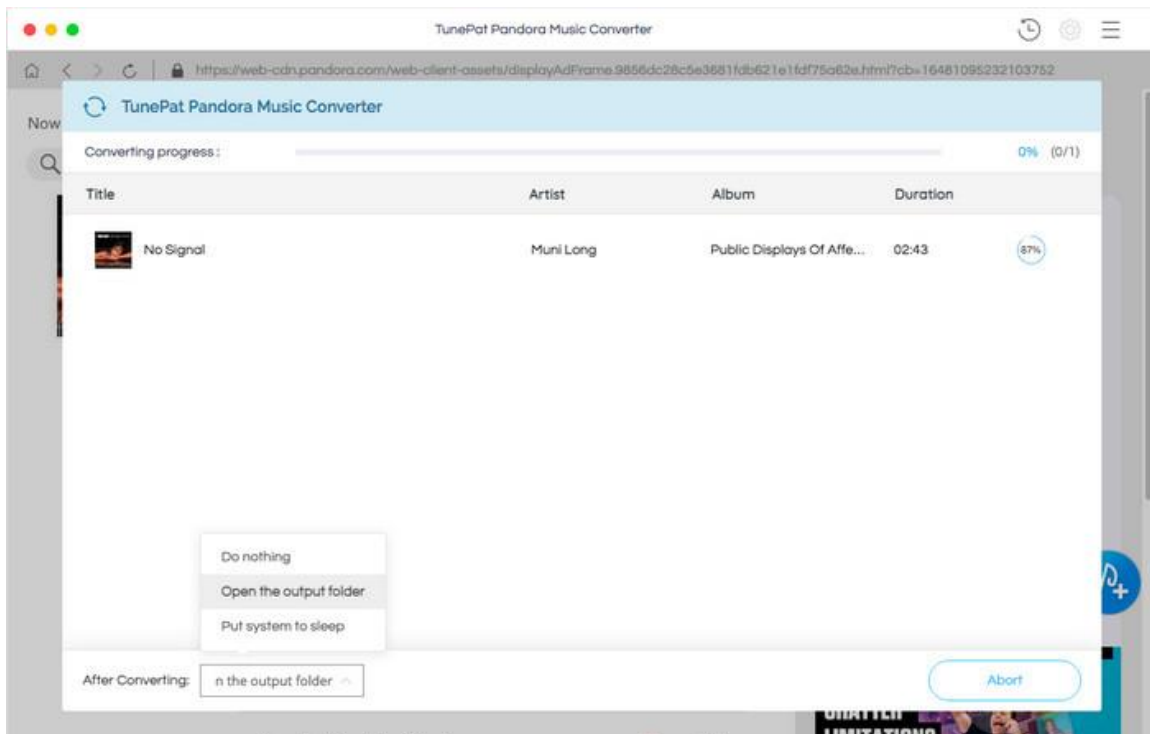

If you want to convert playlists in batch, then click **Save to list** instead of **Convert Now** button. The selected songs will be temporarily saved to the task list in the background. You then continue the playlist adding and songs selection as before. At last, open the task list that is labeled by a notebook icon, click it to open to view all the selected songs or remove those you have mistakenly selected. In final, press the **Convert** to proceed.
